STATE OF THE ART

REPLACE was supposed to end on 31/01/2022, but due to pandemic, we have an additional semester

Project life

■ 1st ■ 2nd ■ 3rd ■ 4th ■ 5th ■ 6th

STATE OF THE ART

REPLACE has 4 main pillars, plus the CBT Circular Benchmark Tool:

Pillar 1: Local Analysis = completed

Pillar 2: Cross-regional synergies = ongoing

Pillar 3: Funding instruments for the Focus Sectors = ongoing

Pillar 4: Assessment Criteria = Learning completed

CBT: launched

STATE OF THE ART

ONGOING ACTIVITIES must be carried out and finalized by the end of July 2022;

The framework for the implementation and monitoring of the lesson learnt is presented in the Action Plan, that has to be concluded and presented by the end of July 2022.

PHASE 2: 1 year, monitoring of action plan, dissemination activities and final event, we will propose a plan for the phase 2 to discuss together

Round table 1

Funding Instruments for Focus Sector

The goal of the project is to investigate the available funding instruments to support CE in the targeted sectors, to see if there is potential for peer-learning (instrument in one region is interesting for another), for improvement (propose new way to finance at regional and interregional level)

Round table 2

Good Practices

Presentation by:

NEXA: The circular economy in Tropical building sector: issues and perspectives' by Martin Picard;

HWWI: Circular Construction in Hamburg by Mirko Kruse

Round table 2

Good Practices

If time, update on interesting policy development: what is happening in the region to turn the project learning into action?

Findings

Round table 3

Assessment Criteria and Monitoring

For the Programming period 14-20 there weren't criteria specifically targeted to circular economy, but these will be inserted in the new programming period 2021-27, Can we look at the criteria and see if there is a correspondence with those we are testing?

Another point refers to the Monitoring of the Action Plan: for example, if the Local Analysis is proven effective in supporting the creation of targeted policy instrument, can we monitor its application/update?
