

# ACTION PLAN

## LCA4REGIONS

## ACTION PLAN

2022  
Portugal

# ACTION PLAN

Identification on how the "lessons learned" through the cooperation can improve the policy instrument addressed in the region.

Actions were based on the good practices of the regions involved in the project.

Presents the specification of the actions, their timing, the sectors involved, costs and potential sources of funding.

# ACTION PLAN

**Public instrument addressed**  
Regional Operational Program

**Focus**  
Public Procurement  
CIMBAL Purchasing Central  
Training of Regional Agents

## 2 Actions

- Integration of Life Cycle Analysis criteria in specific procedures and inclusion of a life cycle calculator.
- Green Public Procurement - Capacity Building.

## ACTION PLAN

# ACTION 1

## Integration of Life Cycle Analysis criteria in specific procedures and inclusion of life cycle calculator

Integration of life cycle criteria in CIMBAL central purchasing procedures and integration of life cycle analysis and its costs in public procurement;

Definition of specific product groups:

Example: procurement of school meals.

# ACTION 1

## Objectives

Availability of sustainable menus with healthy, seasonal, nutritious, and organic foods;

Reduction of CO<sub>2</sub> emissions;

Selecting the best suppliers in terms of price, but also in terms of sustainability;

Reduction of food waste;

Increased awareness of more sustainable consumption.

# ACTION 1

## Criteria:

Compliance with food criteria (fresh, organic, seasonal, certified products);

Price;

Origin and transport type (origin, transport type);

Type of packaging (material, whether it is reusable);

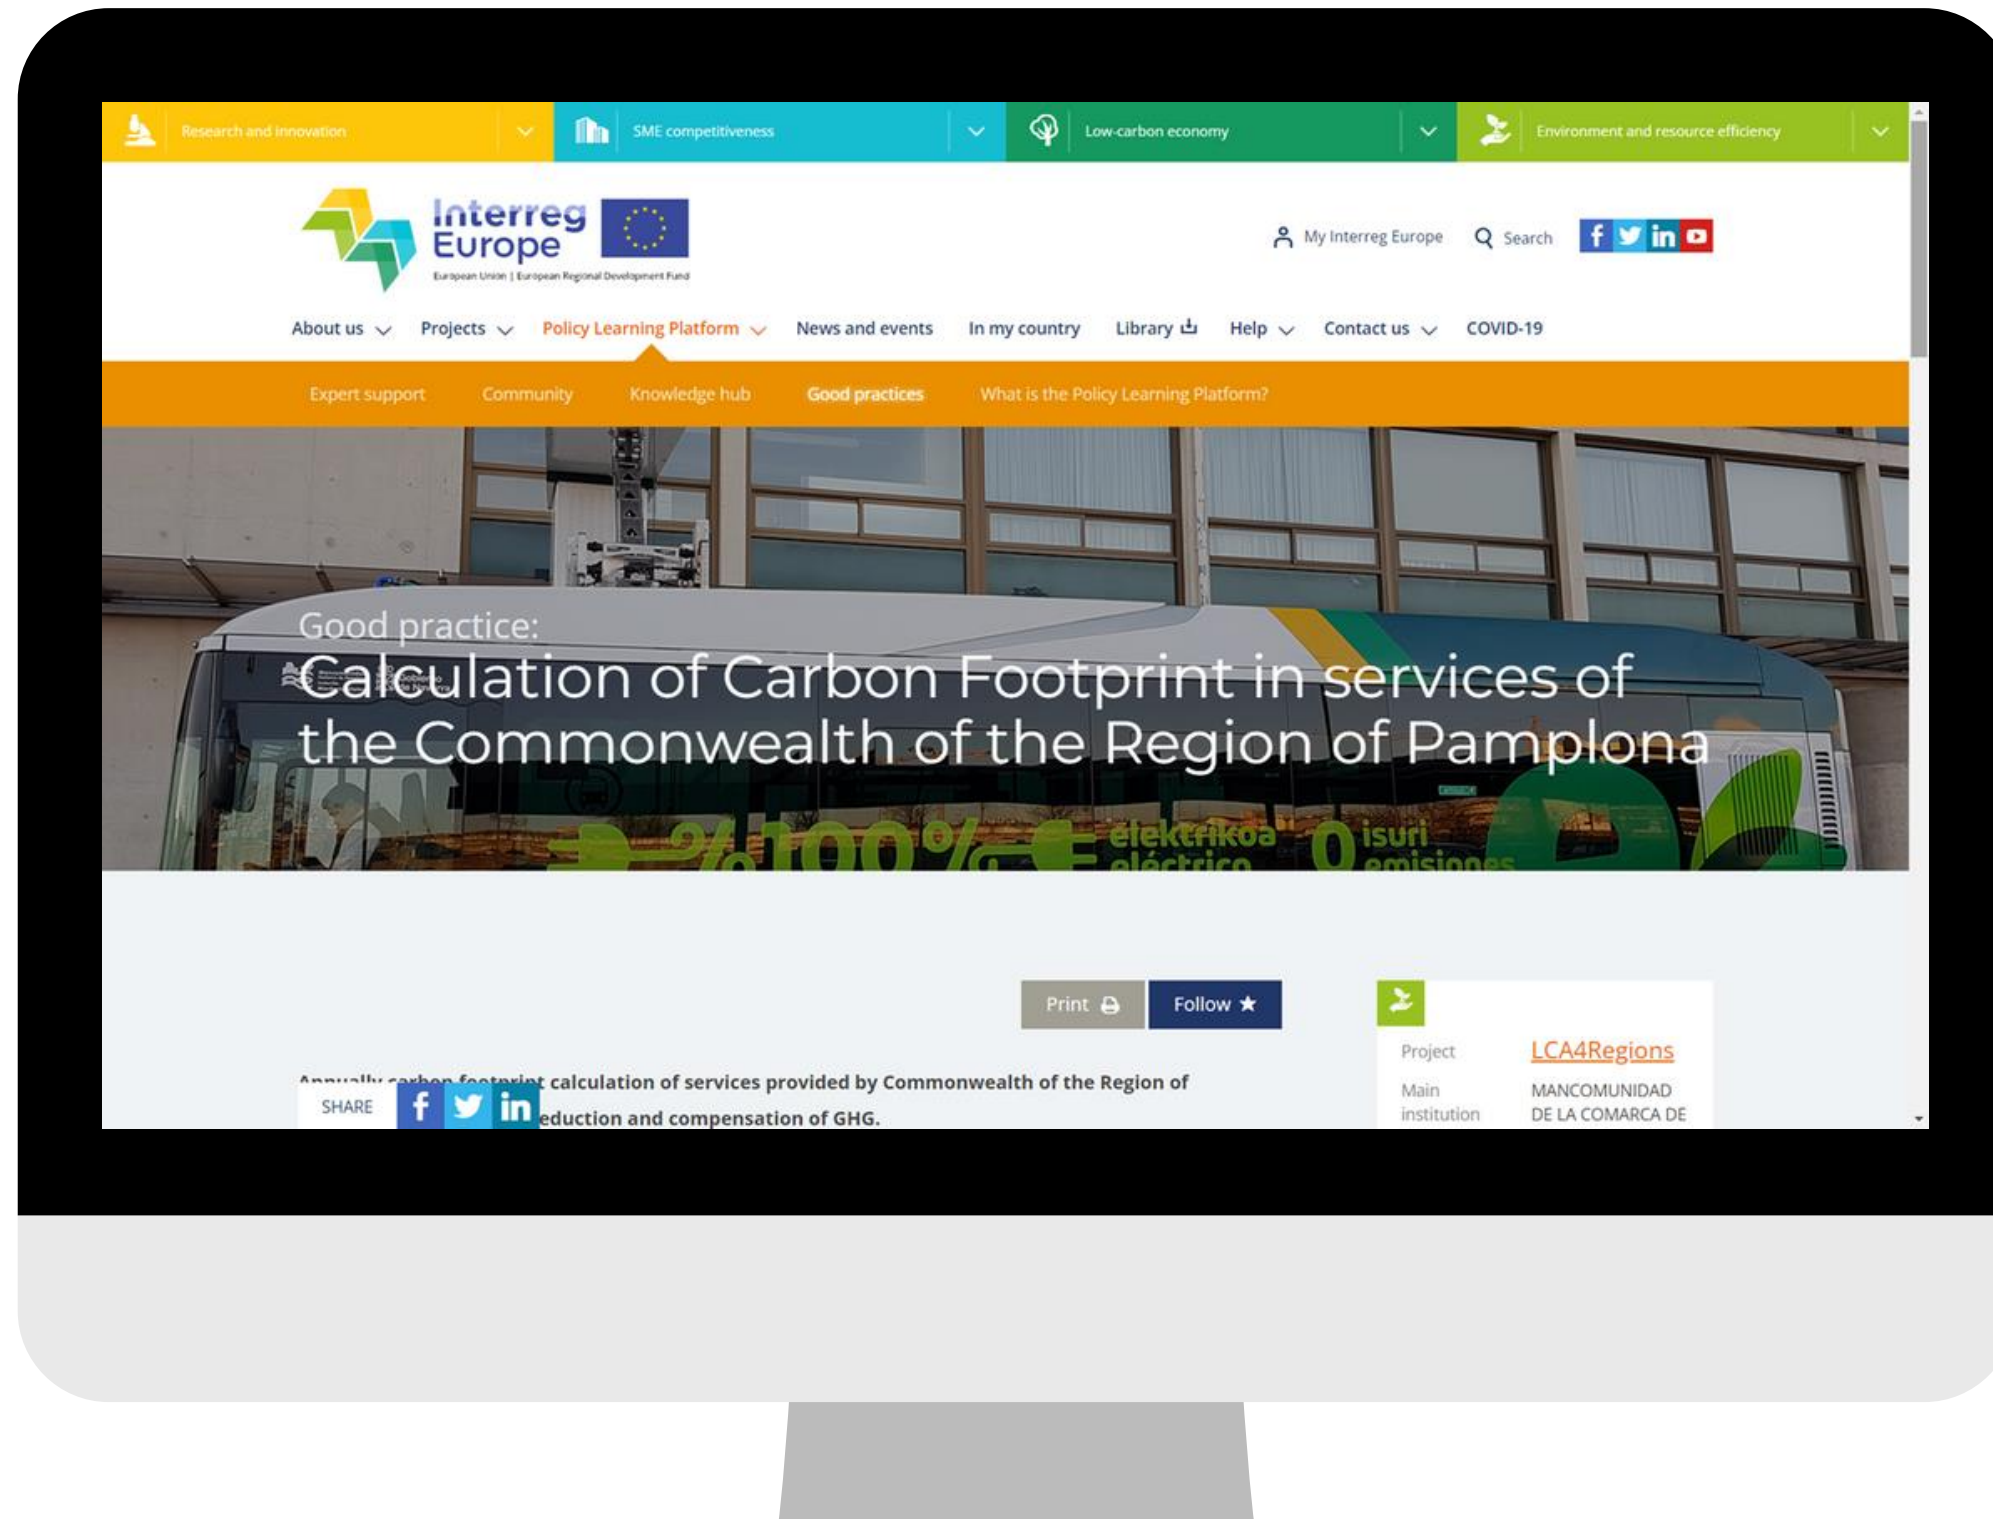

Waste (what is done with the returned packaging material...);

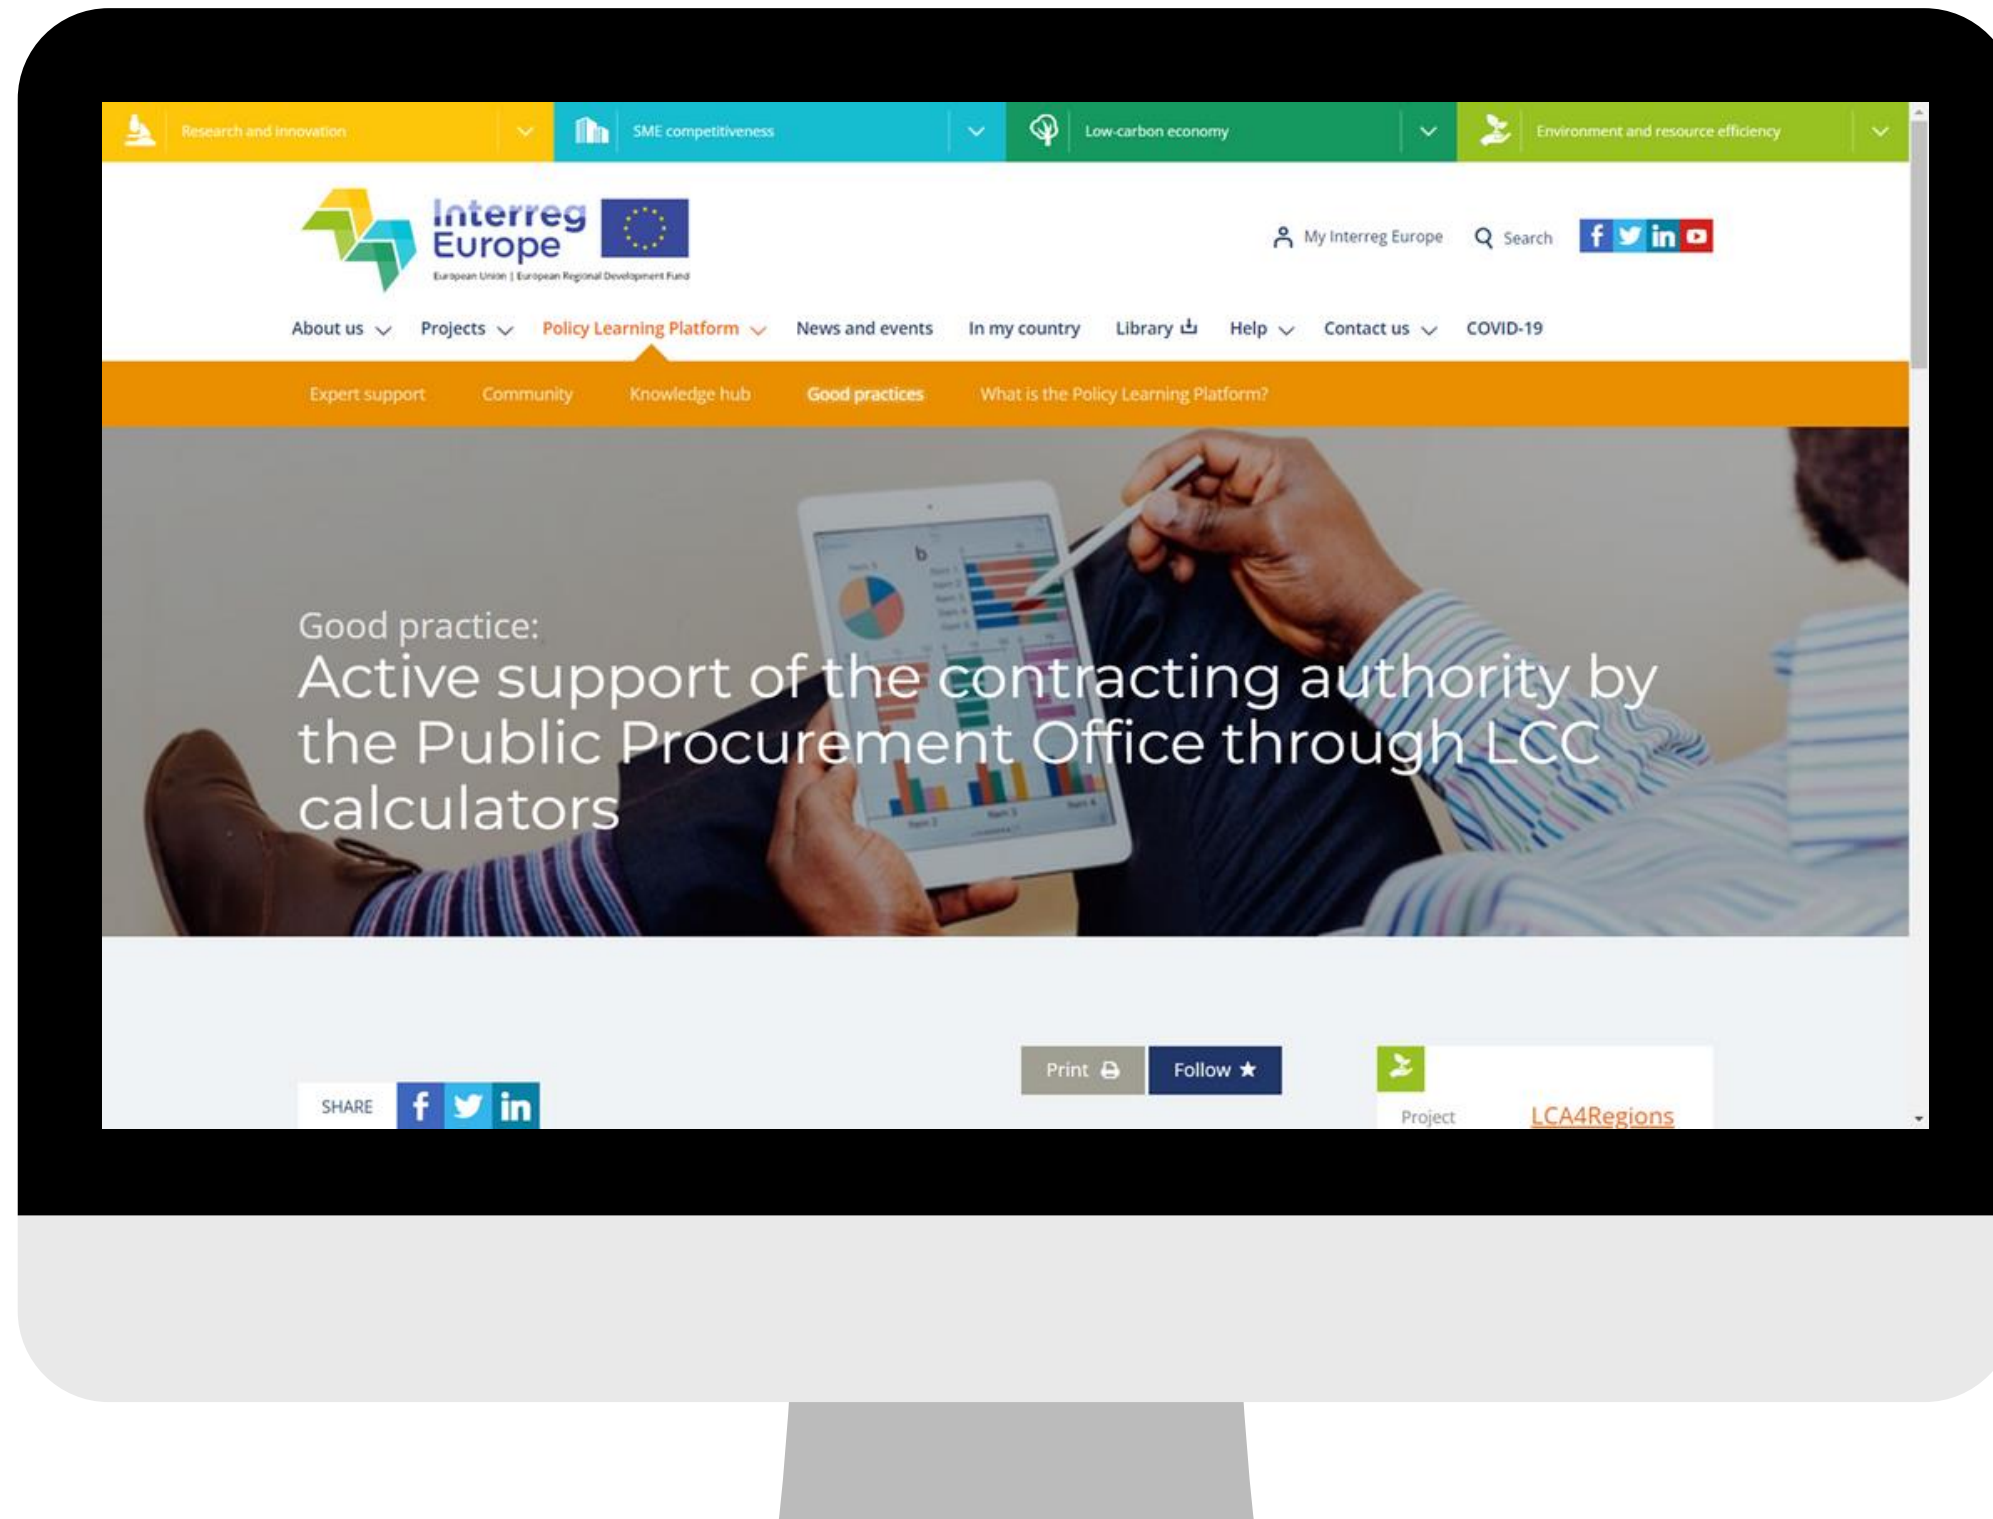

Others (ISO certification, ecological footprint calculation...).

# GOOD PRACTICES

# GOOD PRACTICES

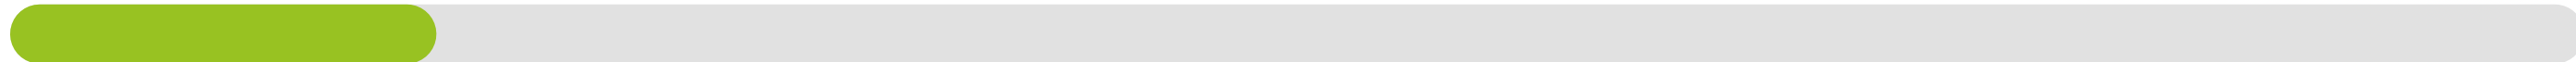

# ACTION 1

## Schedule

M1 M2 M3 M4 M5 M6 M7 M8 M9 M10 M11 M12

Definition of specific product groups and analysis of criteria

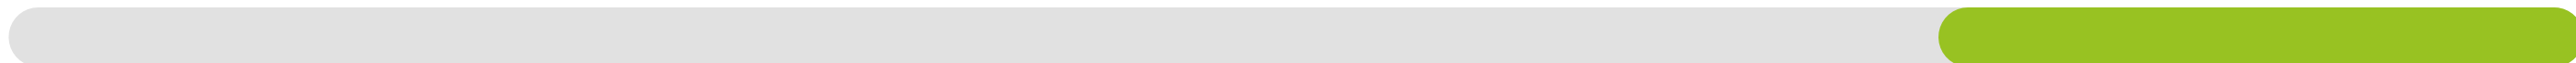

Integration of criteria into CIMBAL central purchasing procedures

Life cycle calculator development

Development of communication actions

# ACTION 2

## **Green Public Procurement - Capacity Building**

Developing green public procurement for, for example, the mobility sector where the goal is to ensure that vehicles do not exceed certain CO<sub>2</sub> emission levels.

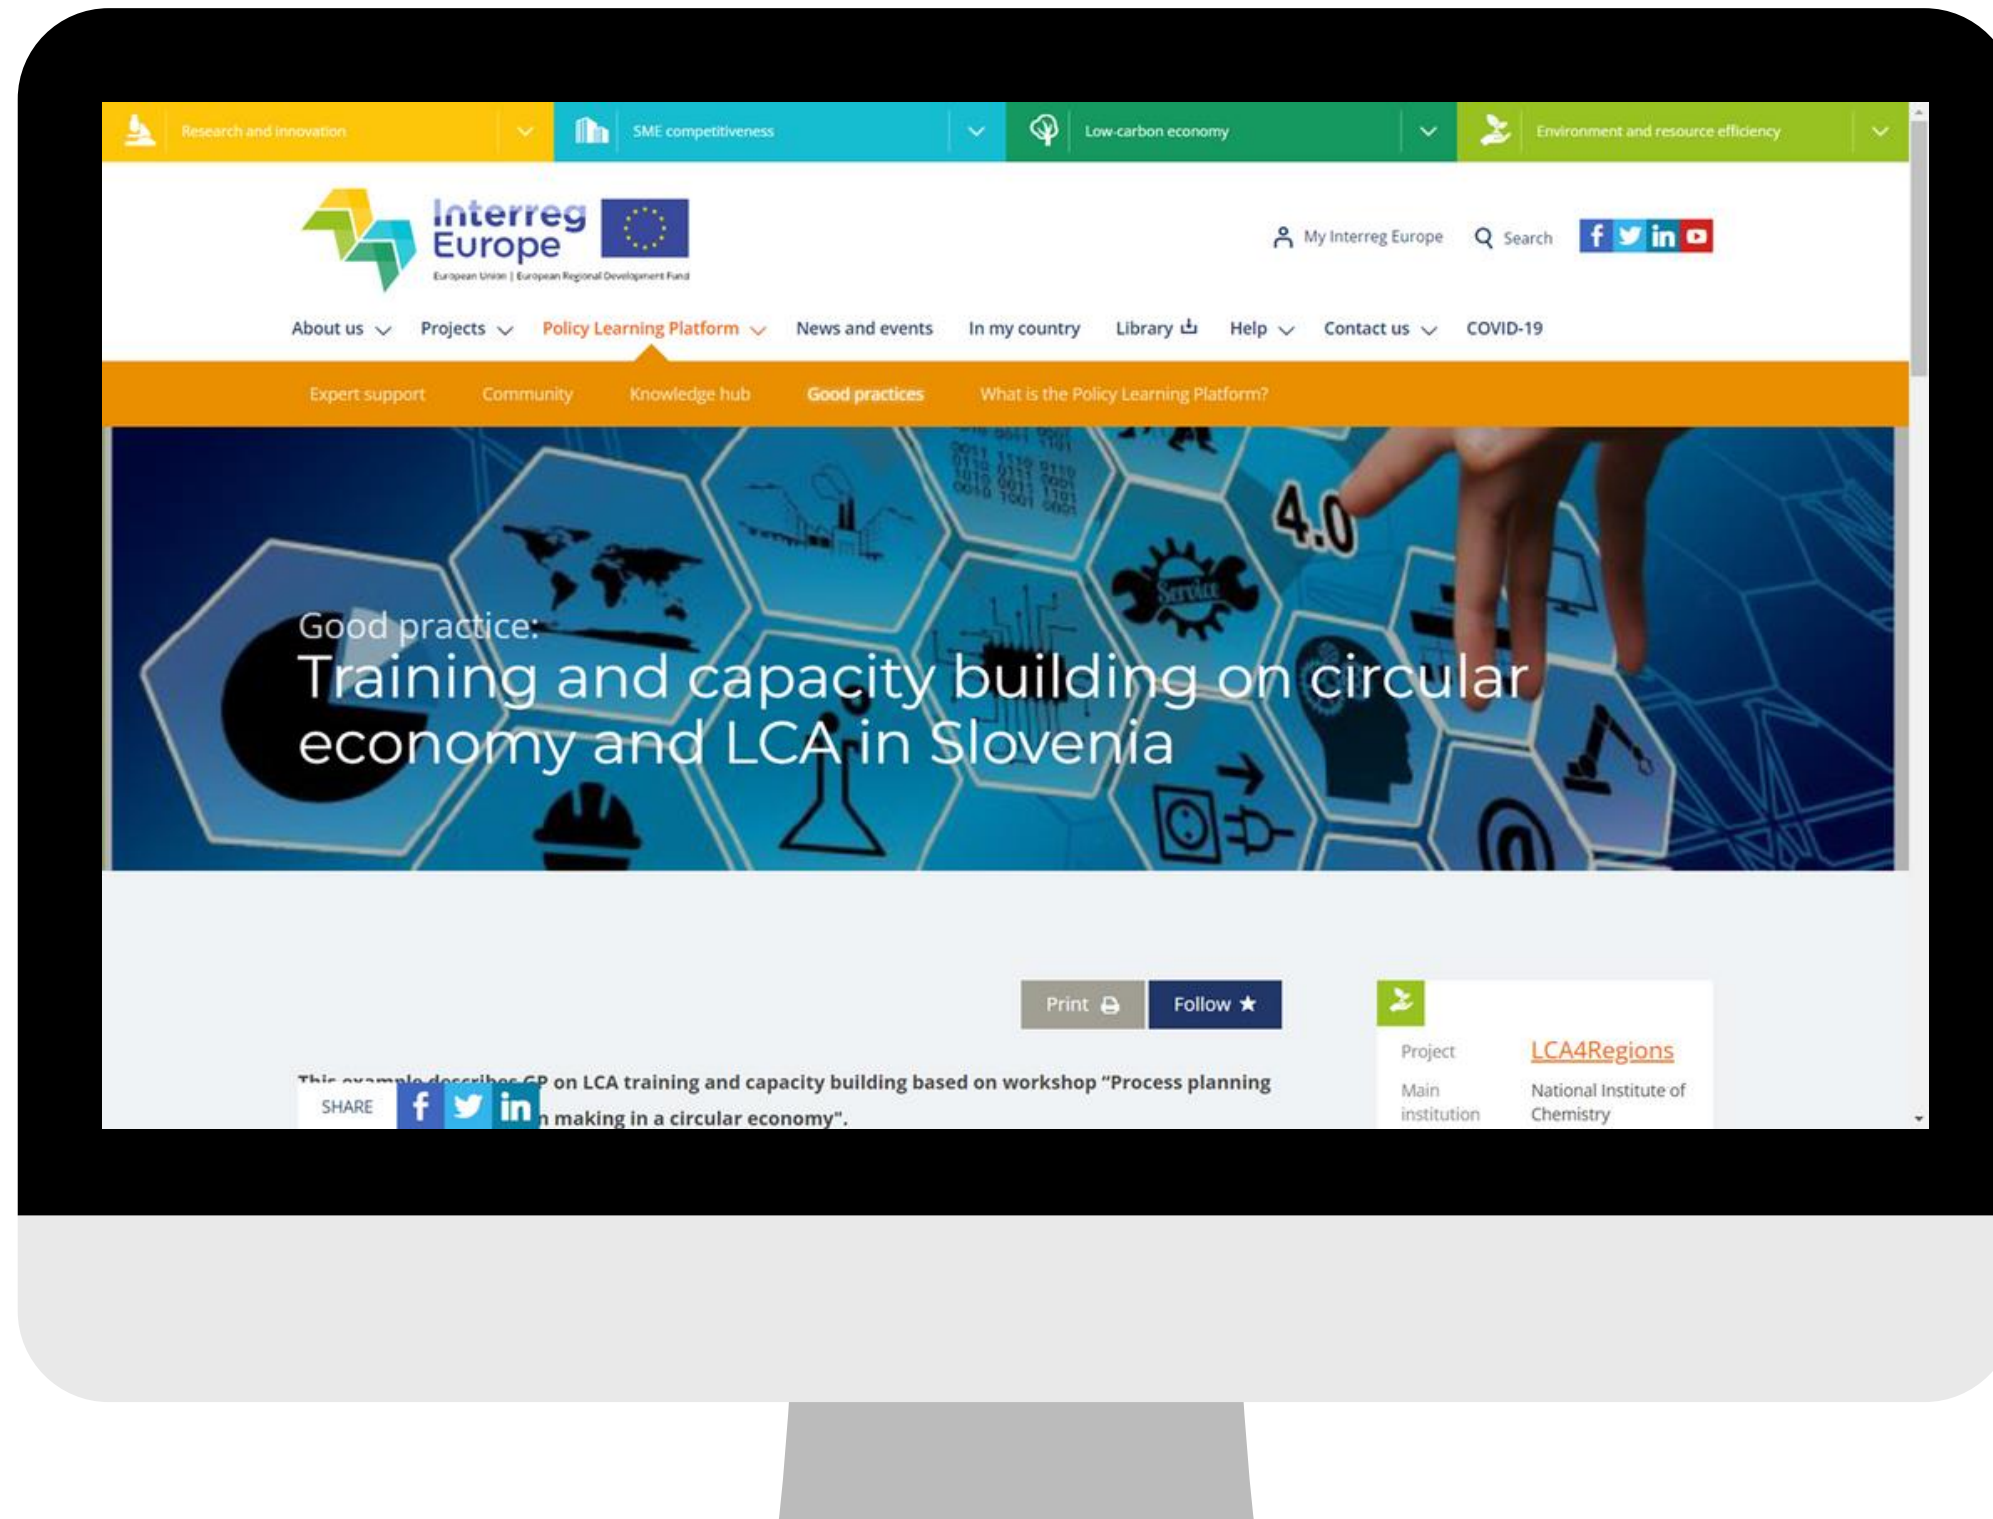

### **Identified Need**

Preparation of specific trainings regarding the implementation of life cycle methodologies, so that all details are fully considered.  
Definition of specific target groups.

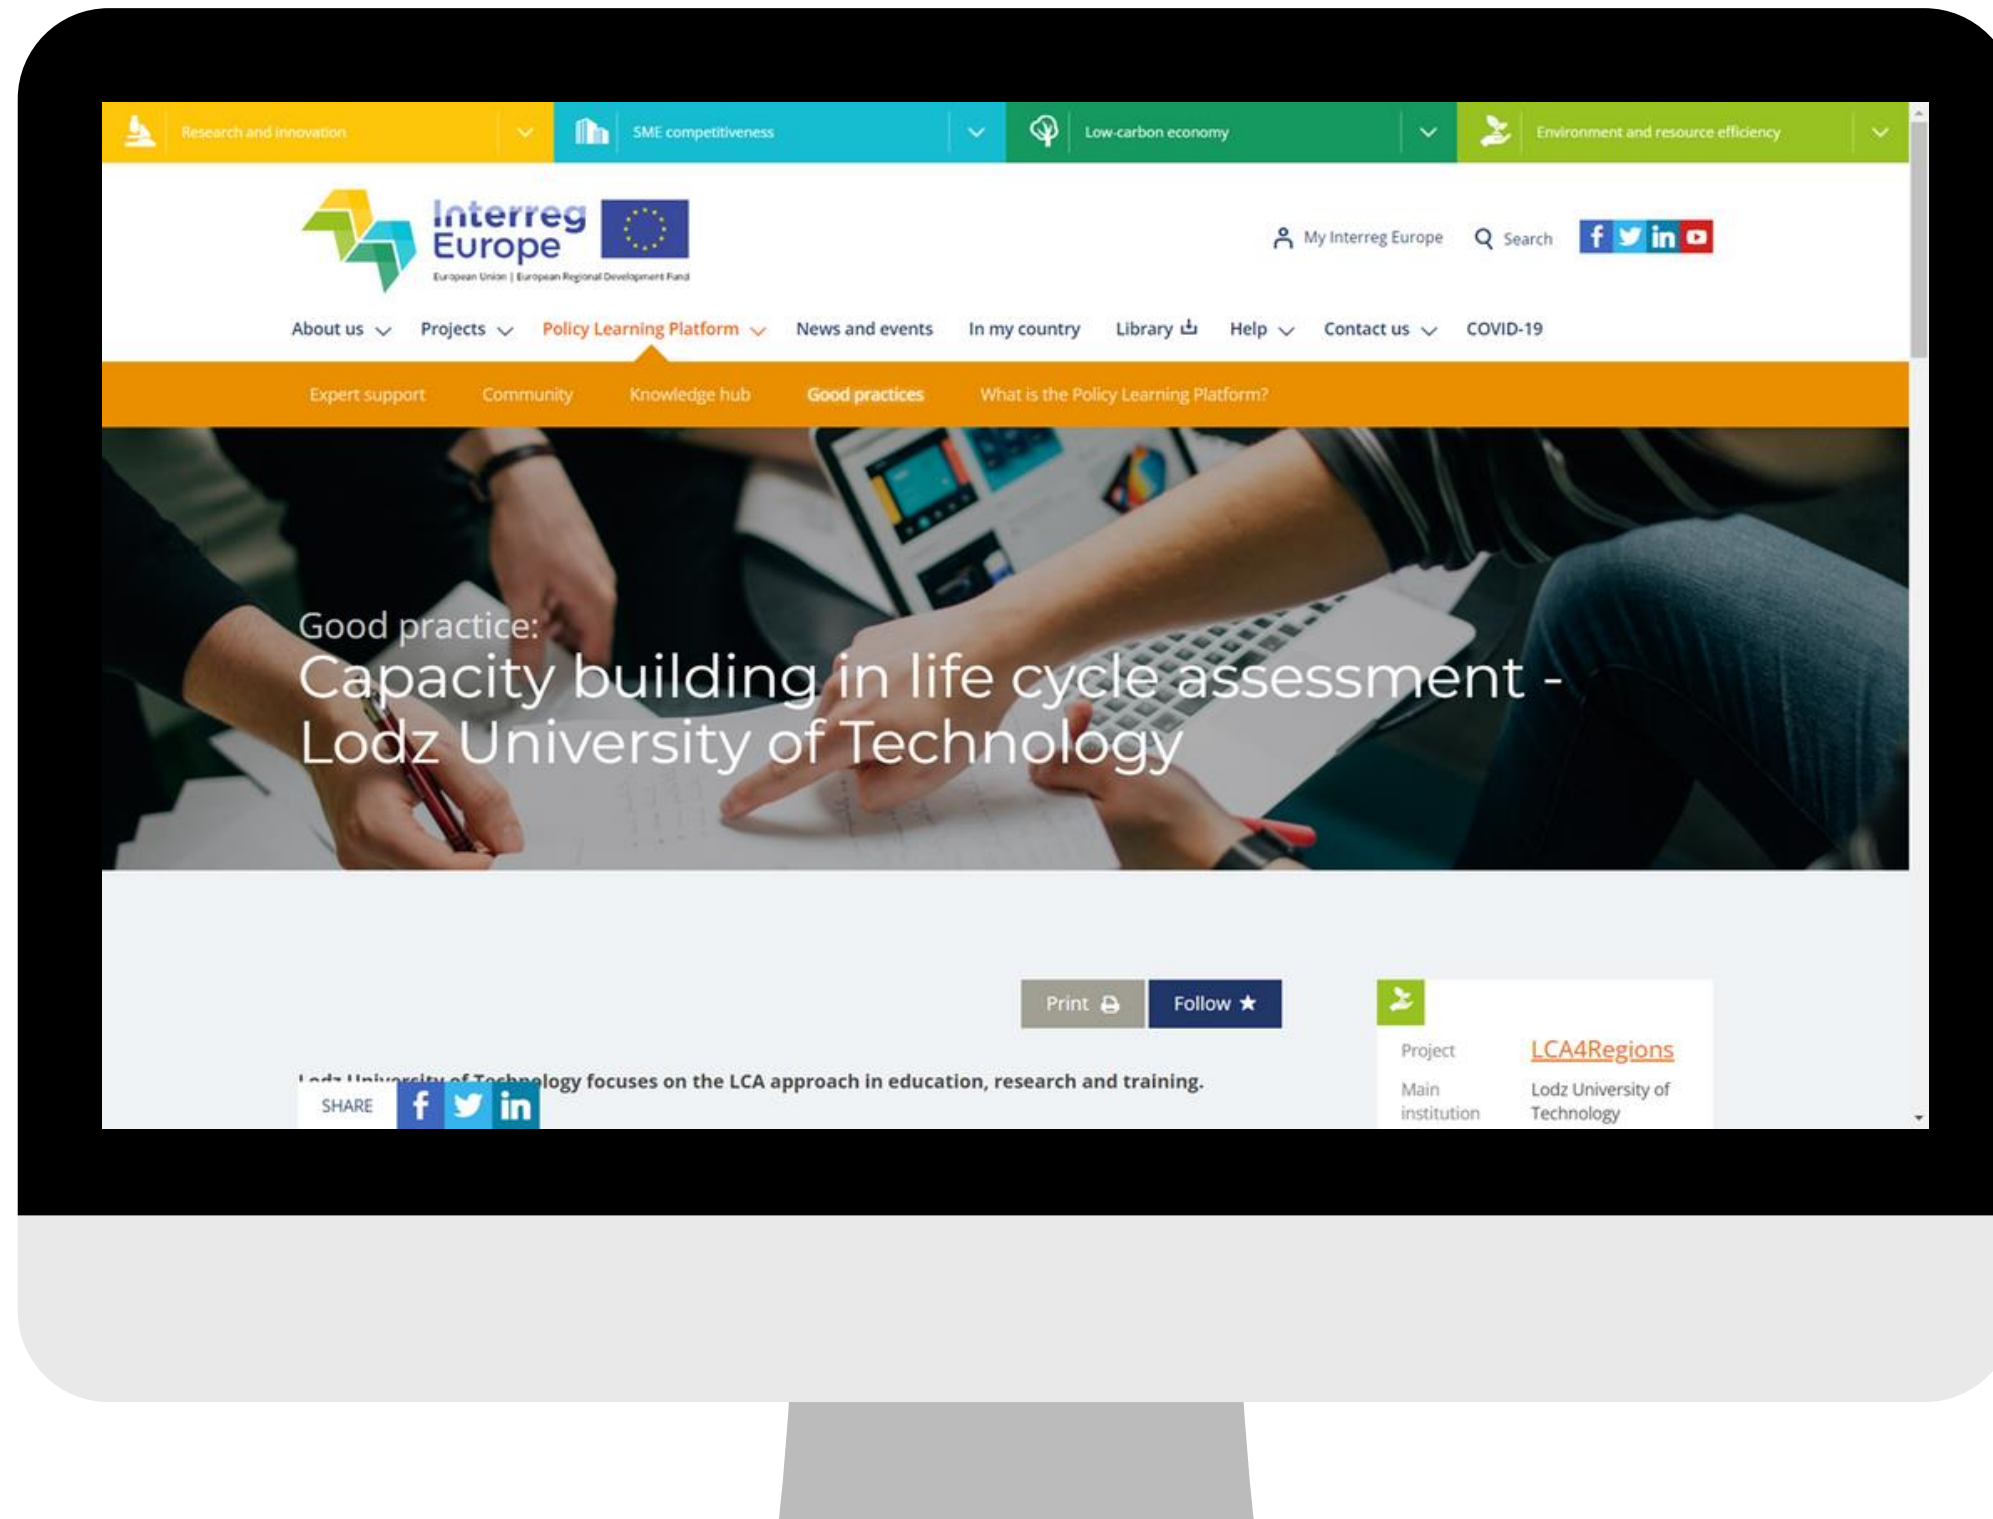

### **Objective**

Decreased CO<sub>2</sub> emissions.

# GOOD PRACTICES

# GOOD PRACTICES

# ACTION 2

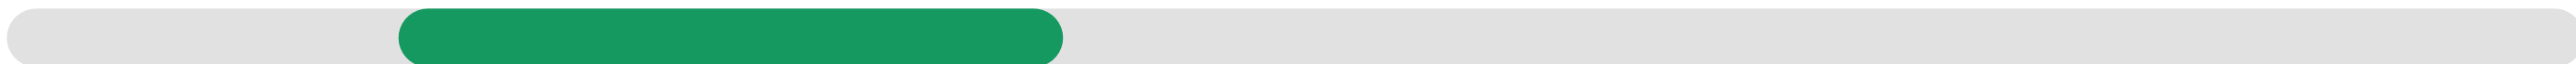

## Schedule

M1 M2 M3 M4 M5 M6 M7 M8 M9 M10 M11 M12

Workshop Program Definition (in articulation with CCDRA)

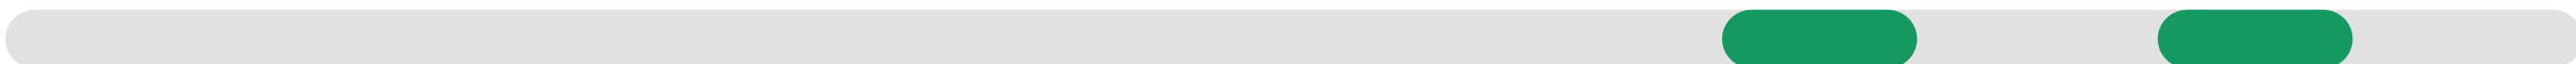

Identification of target groups and experts (in articulation with CCDRA)

Development of information material

Development of workshops (in articulation with CCDRA)

Development of a communication campaign

# CONCLUSIONS

Following CIMBAL's objectives that are related to all its thirteen municipalities - Aljustrel, Almodôvar, Alvito, Barrancos, Beja, Castro Verde, Cuba, Ferreira do Alentejo, Mértola, Moura, Ourique, Serpa e Vidigueira and mainly related to the promotion and management of the strategy for the economical, social and environmental – sustainable- developed of its territory developing and implementing the Action Plan previously described was very important and relevant.

# CONCLUSIONS

It enabled – not only – sharing and cooperating with project partners, representing different European regions, but also share and gather knowledge, thus giving true meaning to the expression lessons learning from good practices.

The action plan, itself is an example on how specification of actions, timings, actors involved, costs and specifically where there are funding opportunities can make a difference.

# CONCLUSIONS

CIMBAL is currently engaged in several projects, both at national and european level and LCA4 regions as a real challenge in many aspects but it was a wonderful opportunity to somehow relate many of the achievements, put together by this experience that CIMBAL has been developing over the years

# CONCLUSIONS

Those are some projects that CIMBAL is dealing with for some of you it might be difficult to identify the topics as they are in portuguese, but I would like to emphasize circular economy, climate change, public procurement, capacity building as importante aspects.

In each and everyone of them - circular economy, climate change, public procurement, capacity building – LCA4regions had na importante role.

LCA is

**THANK YOU!**
